Academic Year 2017-2018
In effect as of September 2017

Fondazione Collegio delle Università Milanese – Via S. Vigilio 10, 20142 Milano

THE COLLEGIO DI MILANO AND THE EDUCATIONAL AGREEMENT

In line with the objectives of the Collegi di Merito, recognized by the Italian Ministero dell'Istruzione, dell'Università e della Ricerca ("to promote and valorize talent and merit; to guarantee to capable and motivated youth, independent of census, the optimal conditions in which to obtain the university title in the allotted time and with the best results; to encourage their introduction into the professional world, be it in Italy or internationally, with the best possible credentials; to provide a complimentary academic curriculum"), the Fondazione Collegio delle Università Milanesi intends to present to its own students an educational and cultural program that focuses principally on the values of merit and the sharing of diverse perspectives and cultures amongst students.

The proposed objective is that of constructing an interdisciplinary model that, thanks to the collegiality and quality of the educational and cultural activities proposed, permits our young students to develop a critical sense of responsibility for themselves, others, the Collegio, and society as a whole.

The Educational Agreement is a compass that orientates and regulates life in the Collegio, and as such it explicitly states what the Collegio offers and what it asks of its students: active participation in our cultural events, the abidance of the rules of cohabitation, and the will to take on a journey of personal and professional growth.

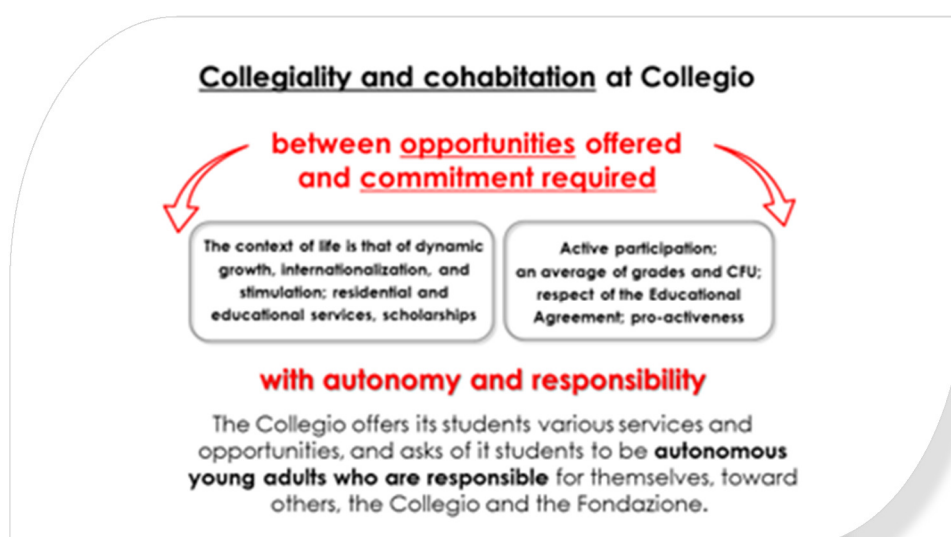

At the Collegio di Milano, the students are considered equal parts responsible and autonomous, taking part in a journey that is not only cultural but also professional. The Collegio di Milano offers educational and tutoring services that are an extension of university courses. Through tutoring service, career service, and international relations, students are given the possibility to connect their university experience to the business world, aiming for the development of important professional values such as ethics, merit, and life skills.

Upon underwriting this Educational Agreement, commit to respecting it in full.

Dr. Stefano Blanco

General Director

Fondazione Collegio delle Università Milanesi

THE STUDENT OF THE COLLEGIO DI MILANO

After the confirmation of admission to the *Collegio di Milano*, "student of the *Collegio di Milano*" status is acquired upon the moment of formal integration into the *Collegio* and the acceptance of the Educational Agreement; the status is lost with the definitive departure from the *Collegio di Milano*.

Required obligations to maintain student status at *Collegio* are:

- Being in good standing with exams and with the Crediti Formativi Universitari (CFU); maintaining an average grade more or less inside 27/30 (updates on all university documents when requested);
- Respecting the Educational Agreement fully;
- Attending the Cultural Activities ensuring continuity, active participation, and engagement, and carrying out the required activities and assignments.

Not Abiding, even to one of these requests, will incur disciplinary action and continuation of such behaviour will incur the procedure for expulsion.

The Educational Agreement must be accepted and signed at check-in, at the beginning of every Academic Year, and in the case of any modifications. At the beginning of each semester, students are invited to a meeting in which the educational agreement is illustrated and shared; the attendance to this meeting is mandatory for new students.

A.2 CULTURAL ACTIVITIES

The Cultural Program Guidelines have been elaborated upon by the Scientific Committee in accordance with the enacted legislation of the Ministry of Education, University and Research (MIUR) relative to the *Collegi di Merito*, in particular, those concerning three specific areas: *development of life skills, internationalization, and connection with the professional world*.

The Cultural Program practices the following teaching methods:

- SEMINARS

A teaching approach which allows both the transmission of content and activation of critical and creative thinking. It is articulated in 5 research themes (*Languages and Cultures of the World, Education on Citizenship, Scientific Knowledge, Images of Man, Business and Economics*). Every Seminar corresponds to a 30-hour commitment (comprehensive to activities of study, research and depth).

- WORKSHOPS

A teaching approach that includes practical, creative, and intellectual activities. The objective is aimed at developing soft skills and life skills. Workshops constitute activities aimed at providing fundamental tools to connect the University experience to the professional world. Depending on the training goals, the duration of workshops could be of 10, 20 or 25 hours (comprehensive to activities for the development of the assignment).

- PROJECT WORK

The collaboration with public and private figures with which the *Fondazione* has constructed a stable and active bond over the years allows for the realization of projects in which students have the opportunity to give life to their own creativity. Through techniques and tools of their own knowledge, students are able to translate an idea for a project into concrete and specific work, calibrated within a real-world context. The project work corresponds to a 30-hour commitment (comprehensive to activities for the development of the project).

- ENGLISH LANGUAGE COURSES

In the vein of favoring internationalization, the *Collegio* organizes English Language Courses:

- "Business English" courses;
- Courses finalized to obtain the linguistic certification IELTS (The *Fondazione* offers the opportunity once to every student during their stay at the *Collegio* to take the exam at no additional cost);
- Courses to improve English skills, mandatory to those that have a language level equal or inferior to B2.

Each course lasts 30 hours.

- ITALIAN LANGUAGE COURSE

The *Collegio* offers an Italian Language Course, for students who are not Italian mother-tongue speakers, and for those who want to learn or develop Italian speaking skills. Course content and duration will be in accordance with the students' different needs.

- SPECIAL GUEST EVENINGS

During the year the *Collegio* organizes evenings with special guests. Usually, these are national and international Public Figures. They come to speak about their personal and professional backgrounds, giving also some good input regarding their professional industry (e.g. politics, corporation, communication). Each talks lasts 2 hours.

- COMMUNITY SERVICE

This type of educational practice is structured around the will to commit oneself to the development of activities useful in life in the community of the *Collegio* as well as work outside the *Collegio*. The duration of each activity may vary.

Students are required to attend a minimum period of 140 hours of activities for each Academic Year (students staying at *Collegio* for the whole year, are required to participate to at least 50 hours of activities during the first half of the year; student staying at *Collegio* only one semester are required to attend at least 70 hours of activities) in addition to the hours required for mandatory activities (i.e. evaluation meetings, presentation of the cultural activities).

- Attend at least 80% of lessons of each activity;
- Attend at least 2 seminars during the Academic Year (or 1 in case of semestral stay) and attend at least 12 special guest evenings (or at least 6 in case of semestral stay)

B.4 STRONG SUGGESTIONS FOR SOME COMMUNAL AREAS:

- COMMUNAL KITCHEN AND LUNCHROOM

The Kitchen and Lunchroom are open 24/7 and are accessible to everyone at *Collegio*.

For motives of hygiene, safety, and respect, a correct use of such spaces is fundamental. The correct management of the kitchen (i.e. cleanliness, conservation of food, order) is indispensable to your own health and that of others, and it is a sign of respect towards everyone.

- LIBRARY AND STUDY ROOMS

The *Collegio* provides students spaces and services dedicated to the facilitation of their studying and concentration. Be it the Library or the study rooms on the second floor, all are open 24/7, and as a courtesy to all colleagues, we ask that everyone observe silence and leave all areas in clean and orderly.

- Wi-Fi CONNECTION

The entire building has Wi-Fi coverage (SSID: Collegio di Milano) which can be accessed free of charge using the personal credentials provided by the Office of Student Life upon Check-In.

It should be noted that, as it is according to copyright law, the downloading of films, musical files, etc. is absolutely prohibited. There is a system installed which tracks all internet navigations and stores data in compliance with the D.Lgs. 196/2003 (Art. 23 -"Code regarding the protection of personal data") for any Postal Police or other competent authorities that may request such information. For the protection of the network and to guarantee its correct use, inspections and monitoring may be carried out on users' web searches.

The installation of a router and/or connecting an Ethernet cable to the LAN is strictly prohibited.

- **GYM AND SPORTING FIELDS**

The *Collegio* recognizes and values sport for its contribution to one's physical and mental health, its contribution to the development of social relations, and its possible use as an educational and informational tool.

To access the gym and sporting fields, it is necessary to present to the Office of Student Life a valid medical certificate which states that the student is in good physical health and capable of participating in non-competitive sporting activities. We ask that you keep in mind the importance of practicing physical activities in accordance with your own technical capabilities, experience, and physical preparation, and to always wear appropriate attire.

As a safety precaution, we strongly advise the use of the gym only if there is at least one other person present.

- **MUSIC ROOM AND ART ROOM**

These areas are available to allow students to cultivate their own artistic interests both individually or in a group.

MUSIC ROOM: Students are allowed to play music from 9.30AM to 10.00PM. To move any equipment or accessory from the Music Room, a request must be made to the Office of Student Life.

ART ROOM: The Art Room is open 24/7; we cordially remind students that it must always be kept clean and orderly, and no personal effects/objects can be left inside the room.

- **LAUNDRY**

The laundry area is open 24/7 and is equipped with two washers and one dryer that are coin operated (1,50 € ea.).

We again ask that this area be kept in order and we ask students to not leave clothes unattended for too long (clothing left in the laundry room for more than two weeks will be donated to charity).

B.5 STUDENT'S GUESTS

Students may receive, at maximum, one guest that can stay at *Collegio* from 8:00AM to 12:00AM. Overnight guests are not allowed.

Students assume responsibility for their own guest and are advised to have their guest respect the rules and regulations as defined in this Educational Agreement as well as the attached documents in case of any damages caused by the guest.

Visitors must always register at Reception. During hours in which Reception is not available, the student must take it upon themselves to register their guest, both upon entering and upon leaving the *Collegio*, in the allocated registry present at the Reception counter. Guests who cannot present an official document of identification cannot and will not be admitted into the *Collegio*.

C) DISCIPLINARY ACTION

A student's stay at the *Collegio di Milano* is bound by the Educational Agreement to its entirety and the discretion of the General Director as well as the Head of Selection and Education.

If at any moment a student does not respect the Educational Agreement, he/she may receive an official, written warning. If a second warning is required, the student will be expelled. In the case of a grave infraction, expulsion will be immediate.

It should be noted that the non-payment of fees before the 15th of the month in which they are due, without valid reason, may also be grounds for processing an expulsion.

The expelled student will be forbidden access to the *Collegio* even as a guest.
