EDUCATIONAL AGREEMENT
BETWEEN STUDENTS AND
COLLEGIO DI MILANO:
RIGHTS AND OBLIGATIONS

In effect as of February 2020

THE COLLEGIO DI MILANO AND THE EDUCATIONAL AGREEMENT

In line with the objectives of the Collegi di Merito, accredited by the Italian Ministero dell'Istruzione, dell'Università e della Ricerca ("to promote and valorize talent and merit; to guarantee to capable and motivated young people, independent of census, optimal conditions in which to obtain the university title on schedule and with the best results; to encourage their introduction into the professional world in Italy and abroad with the best possible references; to provide a complimentary academic curriculum"), the Fondazione Collegio delle Università Milanesi intends to present to its own students an educational and cultural program that is focused principally on the values of merit and the sharing of diverse perspectives and cultures amongst students.

The objective that the Fondazione Collegio delle Università Milanesi proposes is to consolidate an interdisciplinary model that, thanks to the collegiality and quality of the educational and cultural activities proposed, permits our young students to develop a critical sense of responsibility for themselves, others, the Collegio and society.

The Educational Agreement is a compass that guides and regulates life in the Collegio and explicitly states what the Collegio offers and asks to its students: active participation in our cultural events, the observance of the rules of cohabitation and the will to take on a journey of personal and professional growth.

At the Collegio di Milano the students are considered as responsible and autonomous interlocutors which take part at a journey of cultural but also professional growth. The Collegio di Milano offers educational and tutorship services that are an extension of university courses. Through tutoring, career and international relations services students are given the possibility to connect their university experience to the business world focusing on the development of important professional values such as ethics, merit and life skills.

By signing this Educational Agreement, you commit to respect it in full.

*Dr. Stefano Blanco
Managing Director*

Fondazione Collegio delle Università Milanesi

Collegiality and cohabitation at Collegio di Milano between opportunities offered and commitment required

Dynamic, international and stimulating context of life and growth; residential and educational services; scholarships

Active participation; average grade and CFU; respect of the Educational Agreement; proactivity

with autonomy and responsibility

The Collegio offers its students various services and opportunities and asks the students to be autonomous and responsible young adults towards themselves, towards others and towards the Collegio and the Fondazione.

THE STUDENT OF THE COLLEGIO DI MILANO

After the confirmation of admission to the Collegio di Milano, the status of “Student of the Collegio di Milano” is acquired at the time of formal entry into the Collegio and the acceptance of the Educational Agreement; it is lost with the definitive exit from the Collegio di Milano.

Required obligations to maintain the student status of Collegio di Milano are:

- maintaining the average of the votes equal to about 27/30 and be in compliance with the Crediti Formativi Universitari (CFU) (update the university documentation when requested);
- respecting the Educational Agreement in its entirety;
- attending the Cultural Activities ensuring continuity, active participation and engagement and carrying out the required activities (see paragraph A.2);
- fulfilling every request coming from the Italian Ministero dell’Istruzione, dell’Università (MIUR), from the Agenzia Nazionale di Valutazione del Sistema Universitario (ANVUR) and from the Conferenza Collegi Universitari di Merito (CCUM).

Not respecting even to one of these requirements implies a disciplinary warning. The continuation of these situations involves the start of the expulsion procedure.

The commitment of stay in the Collegio is semestral and the maximum duration of stay is equal to the time necessary to complete one's studies without going off course.

A Diploma will be issued to all students who have satisfactorily completed their stay (minimum 2 semesters), having fulfilled all requirements and without having suffered any expulsions.

The Educational Agreement must be signed and accepted at the moment of signing the agreement of admission to the Collegio di Milano. At the beginning of each semester students are invited to participate at a meeting in which the educational agreement is illustrated and shared. The attendance at this meeting is mandatory for new students.

A.2 CULTURAL ACTIVITIES

The Cultural Activities guidelines have been drawn up by the Scientific Committee in accordance with the enacted legislation of the Italian Ministero dell'Istruzione, dell'Università e della Ricerca (MIUR) concerning the Collegi di Merito. In particular, those concerning three specific areas: development of life skills, internationalization and connection with the work world.

The identification and planning of the Cultural Activities are based on the most current and functional themes, on the educational needs identified by the staff and by the Scientific Committee and on the interests expressed by the students. The program of Cultural Activities is always supervised and approved by the Scientific Committee.

Based on the subject matter, different teaching methods will be proposed:

- SEMINARS

A teaching approach which allows to combine the transmission of content, the confrontation in the classroom and the activation of critical and creative thinking. The seminars are of variable duration depending on the theme and include activities of study, research and in-depth analysis.

- WORKSHOPS

A teaching approach that allows an active experimentation in different areas (e.g. soft skills, sport, art, digital skills). The workshops are of variable duration, depending on the educational goals and the production of a documentation can be requested.

- PROJECT WORK

The collaboration with public and private institutions, with which the Foundation has built an active and stable connection over the years, allows the realization of projects in which students have the opportunity to experiment in the relationship with a client and in translating an idea into a concrete project, specifically designed for a real context. The project works are of variable duration and include the activities for the development of the project.

- ENGLISH LANGUAGE COURSES AND ACTIVITIES WITH THE ENGLISH ASSISTANT

To pursue the aim of fostering internationalization, the Collegio organizes English Language Courses, such as:

- courses with IELTS certification (the Fondazione covers the cost of the IELTS certification for each student only once during her/his stay at the Collegio)
- language development courses (compulsory for students with a language level B1 or below).

In addition, the English Assistant of the Collegio performs the function of supporting students in English through specific learning activities. A maximum of 20 hours per Academic Year (or 10 hours in the case of semester stays) for the educational meetings with the English Assistant will be recognized as hours of the Cultural Activities.

- ITALIAN LANGUAGE COURSES AND ACTIVITIES WITH THE ITALIAN ASSISTANT

Italian language courses are organized for non-Italian native speakers willing to learn or improve their Italian language knowledge (Beginners and Advanced level).

Furthermore, to strengthen the Italian language level the figure of the Italian Assistant is present in the Collegio which supports students in Italian through specific learning activities. A maximum of 20 hours per Academic Year (or 10 hours in the case of semester stays) for the educational meetings with the Italian Assistant will be recognized as hours of the Cultural Activities.

- SPECIAL GUEST EVENINGS

The cycle of special guest evenings proposes meetings with personalities of the public life who, in addition of talking about their story and their personal and professional experience, can give the students a cross-section of the professional field in which they operate.

- COMMUNITY SERVICE

This type of training involves the performance of activities useful to the life of the community within the Collegio, as well as external volunteering activities. Each activity corresponds to a number of hours that varies according to the commitment required; the commitment recognized for Community Service activities is a maximum of 20 hours per Academic Year (10 hours in the case of a semester stay).

- JOB-SHADOWING

This educational activity takes place within a company or business and entails the observation of a professional in his/her job in order to reach a better understanding of the job role. The observation sessions will go along with moments of re-elaboration.

- COMPANY VISITS

In agreement with several host companies, there is the possibility for small groups of students to organize visits to companies of interest of the national and international scene, for a better understanding of the organizational functioning of a company, by having the opportunity to visit different divisions. Depending on the availability of the involved company, it will be possible to think of ways of interaction with the figures that will guide this experience, in order to make participation effective for one's professional growth.

For more details regarding the Cultural Activities please see the supplementary documents that will be provided during the Academic Year. Any additional Cultural Activities will be communicated during the Academic Year.

Students are required to attend, following the guidelines provided by the staff, a minimum of 140 hours of educational activities for each Academic Year (students staying at Collegio for the whole Academic Year are required to participate to at least 50 hours of activities during the first semester; students staying at the Collegio only one semester are required to attend at least 70 hours of activities) and to participate at the compulsory activities which are mandatory (i.e. Inauguration of the Academic Year, presentation of the Cultural Activities at the beginning of the Academic Year, group discussions and completion of valuation surveys of the Cultural Activities), some of which will be recognized in the mentioned 140 hours of the Cultural Activities.

In order to create a personalized program each student can choose the Cultural Activities he/she wants to attend by following the instructions provided by the staff. The Cultural Activities program chosen by the student must be shared and validated by the contact person of the Educational Activities.

In order to recognize the full amount of hours of the participation of the activities the following requirements must be respected:

- attend at least 80% of lessons of each activity;
- attend at least 12 special guest evenings (or at least 6 in case of semestral stay);
- attend the Cultural Activities with continuity, active participation and engagement as requested by the professors and staff;
- participate in the activities indicated by the staff as mandatory;
- complete in the manner and at the times indicated by the professors, the final output requested in the Cultural Activities frequented.

Punctuality and attention in the classroom are essential elements and a sign of respect for professors and the other students. During the lessons it is prohibited to use mobile phones or other computer devices, except otherwise stated by the professor.

In case of absence or tardiness to any lesson it is always mandatory to inform in anticipation via e-mail to programmamaculturale@collegiodimilano.it.

The Collegio di Milano joined the process of recognition and certification of transversal skills promoted by the Conferenza Collegi Universitari di Merito. Specific Cultural Activities included in this certification project will be communicated during the Academic Year.
