OBJECTIVES AND ORGANISATION

The **Cultural Activities** are complementary to university courses and aimed at providing tools to understand the complexity of reality by experimenting:

Multidisciplinary approach

Social mobility

Culture of merit

Soft skills

Internationalization

Connection with professional world

Personal and professional growth

Active citizenship

These activities also help the students consolidate **critical thinking, judgment ability and sense of responsibility** towards themselves, towards others, towards the community of the Collegio di Milano and towards society.

The Cultural Activities have been elaborated upon by the **Scientific Committee** in accordance with the enacted legislation of the Italian Ministry of University and Research (**MUR**) about Collegi di Merito.

The **organization** of Cultural Activities will last the entire Academic Year, with a **diversified distribution** of classes and lessons, to allow each student to organize his/ her participation in the Collegio's activities together with his/ her universities duties.

In addition, the Collegio di Milano has adhered to the process of **recognition** and **certification** of **cross-disciplinary skills** promoted by the **CCUM** (Conferenza dei Collegi Universitari di Merito).

TEACHING METHODS

We offer **different teaching methods** that foster learning content and skills and the activation of critical and projective thinking.

Cultural Activities are organized in **6 thematic areas and 3 transversal macro topics**.

Each activity will be organized following the thematic areas and in each area, you will also find a specific focus on one or more of the transversal topics.

As in the previous semester, this semester, too, students will have the possibility to participate in various events organized with different partners.

One of the most exciting educational events is the international experience "**Collegio Meets the Future**" organized by our Fondazione.

Furthermore, we will organize meetings and events, for example, in collaboration with:

- the Fondazione Poffe (event in memories of Andrea Poffe where the "scholarship Poffe" will be presented)
- the Mentorship program Mentors4u
- the Rotary Club Milano (project regarding the students' idea of "Milano del futuro")
- the Master Publitalia (possibility to participate at a Marketing workshop within the Master).

Further information for the mentioned events and other extra events will follow during the semester.
